

ABSTRACT ID

Título

Lunes 23
11:00 A 12:00 HS.

577

Multimorbidity And Its Influence On Modifiable Risk Factors For Dementia In A Low-educated Brazilian Population / Braian Corso da Silva, BS, Gabrieli Dos Santos Battú, BS.

543

Data-sharing Practices Among Researchers In Alzheimer's Disease And Other Dementias: Preliminary Findings From A Survey / Leandro Matías Roll et al.

536

Prevalence Of Modifiable Risk Factors For Dementia In A Brazilian Sample
Gabrieli dos Santos Battú et al.

471

Alterations In Gut Microbiota Across The Stages Of Alzheimer's Disease Among Elderly Individuals From Veranópolis / Eduarda Letícia Klafke Ebert et al.

597

Loss Of Person-specific Knowledge In Right Temporal Variant Frontotemporal Dementia: A Case Study / Loana De Los Santos et al.

497

A Medicinal Chemistry Analysis Of Astrocytic Receptors In Alzheimer's Disease
Lucas Azambuja Giordano et al.

466

Impact Of IDO1 Genetic Variants On Brain Glucose Metabolism And Apoe Glycosylation In Alzheimer's Disease / Ramon Bertoldi de Souza et al.

459

Transdermal Kojic Acid Transfersomes For Prevention And Treatment Of Neurodegenerative Diseases / Alicia Braga Alves et al.

531

Psychiatric-risk Trim26 Variant Enhances Tau Pathology Under Amyloid- β Exposure In Alzheimer's Disease / Gabriella Bensussan et al.

427

Neuroinflammation And Behavioral Impairments In The Stz-induced Alzheimer's Model In Female Rats / Lucia Mechelk at al.

446

Ageism Across Gender And Cognition: Insights From A Latin American Study
/Micaela Arruabarrena

515

Metabolic Network Signatures Of Long-COVID Resemble Early Alzheimer's-like Patterns
/ Tâmie Duarte et al.

535

Astrocyte Reactivity: A Key Mediator Of Alzheimer's Disease Risk Following Critical Illness
Débora Guerini de Souza et al.

127

Hippocampal Hydroxymethylation Landscape Is Modulated By Abeta Accumulation And Environmental Stimulation In A Rat Model Of Alzheimer / Julia Verheul-Campos et al.

558

Sustainable Medicinal Chemistry Approaches To Modulate Astrocytic Inflammation In Alzheimer's Disease / Tiago Tassano et al.

481

Educational Level Shapes The Relationship Between Plasma Ptau-217 And Brain Glucose Metabolism In Long-covid / Ana Paula Bornes Silva et al.

318

Cognitive Reserve: The Role Of Occupational Activity As A Protective Factor Against Cognitive Decline In Women / Mayda Zegarra, Carolina Feldberg

425

An AI Based Semantic Fluency Score: Development And Validation In A Latino Cohort
Jeremias Inchauspe et al.

ABSTRACT ID

Título

Lunes 23
15:00 A 16:00 HS.

447

Polyphenol-based Neuroprotection: From Meta-analytic Evidence In Preclinical Models To In Vitro Nanocapsule Efficacy / Giulia Aline Führ et al.

587

Mortality Due To Alzheimer's Disease In Brazil Before And After The Covid-19 Pandemic: An Analysis Of National Data / Ana Luisa Becchi Fadoni et al.

561

Characterization Of Cognition, Sleep, And Quality Of Life In Patients With Traumatic Brain Injury / María José Rodríguez

468

Transición Clínica y Neuropsicológica Hacia Una Afasia Progresiva Primaria De Variante LogopéNica Por Alzheimer: Reporte De Un Caso / Sttefano Abanoni et al.

424

Socioculturally Generalizable Speech Biomarkers Of Alzheimer'S And Frontotemporal Dementia In Latinos / Franco Javier Ferrante et al.

479

Longitudinal In Vivo Characterization Of 3xTg-AD Mice Model Of Alzheimer's Disease: PET/MRI Imaging, Histological And Behavioral Studies / Rosina Dapuzeto

337

Exploring The Neuroprotective Potential Of The Psychedelic Ibogaine In An In Vitro Model Of Alzheimer's-related Neurodegeneration. / Manuela Bentura et al.

413

Exploring Brain Metabolic Subtypes With [18f]fdg Pet In Long Covid Subjects In A Brazilian Cohort / Giordana Salvi de Souza et al.

454

Contribution Of FDG-PET And PIB-PET In A Case Of Early-onset Rapid Cognitive Deterioration Fabio Rodríguez Cerón et al.

514

Apoε Rs769449 Modulates The Effect Of Apoε4 On Tau Pathology In Late-onset Alzheimer's Disease / Maria Luiza Fernandes Dahlem et al.

451

Associations Between Brain Glucose Metabolism And Anxiety And Depression Symptoms In Individuals With Long-COVID / Guilherme Lima Ferreira et al.

473

Neuromodulation And Neurosurgical Approaches In Alzheimer'S Disease: A Secondary Literature Review From A Neurosurgical Perspective / Ivan Andres Velasquez

467

Differential Memory Profiles In Long-COVID Patients According To Educational Attainment Sofia Echer Maitelli et al.

304

Identification Of A Novel Psen1 Variant Associated With Early-onset Alzheimer'S Disease In San Juan, Argentina. / Maria Beatriz Bistue Millón et al.

510

Clinical Progression Across Pet-based Biological Stages In Alzheimer'S Disease Marco Antônio A. Valer et al.

458

Structural And Functional Neuroimaging Correlates Of Memory And Verbal Fluency In Early Stages Of Alzheimer's Disease / Valentino Méndez et al.

520

Results Of The Modified Complex Functional Study (cfs) In An Argentinian Population Of Older People. / María Celeste Lopez Moreno et al.

511

Altered Reelin Pathway Dynamics In Embryos From A Rat Model Of Autosomal Dominant Alzheimer'S Disease / Vanessa Gomes Ramos et al.

549

Preliminary Analysis Of Cognitive Function Across Psychiatric And Neurological Cohorts: GBHI Pilot Study / Isabella B. Schroder Roesler et al.

398

Mapping the neurovascular landscape in aging and dementia: cerebral small vessel disease markers in a multicenter Latin American cohort. / Florencia Altschuler

ABSTRACT ID

Título

Martes 24
11:00 A 12:00 HS.

491

Sex-specific Associations Between Glutaminyl Cyclase And Alzheimer's Disease Biomarkers / Marcelo de Bittencourt

493

Associations Between Cognitive Performance And Brain Glucose Metabolism In Individuals With Long-covid / Maria Eduarda Boettsche et al.

137

Survey On The Use Of Neuropsychological Tests And Normative Data In Uruguay
Valeria Contreras et al.

456

Natural Terpenoid Derivatives From Asteraceae:
Multitarget Neuroprotection In Alzheimer's Disease / Aline Fuhr et al.

486

Protective Effects Of Probiotics And Butyrate On
Hypercholesterolemia-associated Brain Alterations / Mariana Viana Costa et al.

559

Discriminant Linguistic Profiles Of Primary Progressive Aphasia Variants Using The
Rioplatense Mini-linguistic State Examination / Axel Fernández Zaionz et al.

580

Design, Implementation, And Assessment Of Cognition-Oriented Treatments In Adults:
Results From A Pilot Survey Of Experts In Latin America / María Eugenia Martin et al.

575

Linking Behavior And Molecular Pathology In The 3xtg-C57 Alzheimer'S Mouse Model
Guillermina Maria Bollini et al.

593

Multimodel Evaluation Of Heterocyclic Compounds With Neuroprotective
Potential In Alzheimer'S Disease / Maria Paula Faccin Huth et al.

384

Influence Of PLEK SNPs On Brain Glucose Metabolism / Marco Antônio de Bastiani et al.

331

In Vitro Evaluation Of Mao-a Inhibitor Harmine As Potential Modulator Of
Neuroinflammatory Pathways Involved In Alzheimer's Disease / Victoria Valiente et al.

338

Cell Viability And Neurite Patterns In HT-22 Cells Differentiation: Effects Of PARP
Inhibitor MN64 And Collagen Matrix / Maite Sanchez Galli et al.

96

Effects Of Subchronic Low-dose Glucocorticoid Treatment On Glial Activation And
Neuroinflammation In The TgF344-AD Rat Model / Roberta dos Santos de Oliveira et al.

552

Bacterial Infections And Alzheimer's Disease Susceptibility / Daiana Daniele Boeff et al.

431

Dynamics Of Oral Microbiota Networks Throughout
The Progression Of Alzheimer's Disease / Isadora Crasnhak de Souza et al.

224

Uruguayan Adaptation Of The ACE-III And IFS: Preliminary Validation Study
/Sofia Schurmann et al.

463

Neuroprotection From Olive: Next-generation Drug Development
/ Katuscia Adam Mello et al.

489

Stage-specific Relationships Of CSF ATG7 With Amyloid And Brain Metabolism In
Alzheimer'S Disease

571

Using Automated Speech And Language Analysis To Predict Brain Health In Older Adults
Ivan Caro et al.

588

Stereoencephalography And Neuropsychological Assessment In Refractory
Epilepsy: Impact On Surgical Decision-making / Micaela Arruabarrena et al.

ABSTRACT ID

Título

Martes 24
15:00 A 16:00 HS.

478

Shared Molecular Signatures Between Alzheimer's Disease And Covid-19 In The Human Frontal Cortex: A Semantic Similarity Approach / Guilherme Bastos de Mello et al.

330

Biotransformation And Neuroprotective Effects Of A Phenolic-rich Extract From *Vitis Vinifera* L. Cv Tannat Pomace / Mikaela Rajchman et al.

469

Craft Story 21: Rioplatense Standardization And Validation Of A Recognition Phase / Maria Agostina Carello

403

Embryonic Neural Dysfunction In A Rat Model Of Autosomal Dominant Alzheimer's Disease / André Nunes

17

Oculomotor Biomarkers In Alzheimer's And MCI: Systematic Review / Gustavo Luis Verón et al.

399

Metagenomic Profiling Of Alzheimer's Disease Stages In A Blue Zone Candidate From Southern Brazil / Amanda Muliterno Domingues Lourenço de Lima et al.

568

Adult Normal Pressure Hydrocephalus / Bettina Aguiar

476

Modular Sensor Device For The Early Detection Of Urinary Tract Infections In Patients With Alzheimer's / Ivan Andres Velasquez

500

Evaluation Of 11c Label Of Derivate Of Kenpauillone As A Potential Gsk-3 Pet Radiotracer For Alzheimer Disease / Maia Zeni et al.

19

Aging Disrupts The Temporal Organization Of Slow Oscillations Beyond Density Reduction / Lucila Capurro et al.

592

Glp-1 Receptor Agonists And SglT2 Inhibitors: Cognitive And Neuroprotective Effects In At-risk Adults / Guilherme da Rosa Raya et al.

492

Improving Neuropsychological Assessment In Argentina: Development Of Regression-based Norms For Adults / Florentina Morello-García

175

Functional Brain Changes Linked To Cognitive Impairment In Hypertension, Clinical-fMRI Study / Valentina Más et al.

460

Divergent Cell-type-specific Transcriptional Signatures In The Hippocampus Of An Alzheimer's Model And Humans / Nuno Andres Beltran Pires et al.

407

Streptozotocin Model Of Alzheimer's Disease: Progression Of Cognitive Impairment, Astroglisis, And Cholinergic Dysfunction / Sofía Niño et al.

483

Neuroprotective Potential Of Metformin In The Context Of Hypercholesterolemia: An In Vivo And In Vitro Approach / Letícia de Oliveira Carvalho et al.

61

Neuroprotective Effects Of Curcumin And Luteolin On Cognitive Impairment: A Meta-analysis In Rodent Models / Giulia Aline Führ et al.

339

Functional Brain Alterations Associated With Hypertension And Cognitive Decline / Paola Spósito

484

Neuroprotective Effects Of Polyphenols In Alzheimer's Disease / Izabella Giacom Deitos et al.
